Character Issues

There are no pending applications in which character issues have been raised against applicant, or any broadcast application where character issues were left unresolved or were resolved adversely against applicant or any party to the application. We note, however, that with respect to Applicant's ultimate parent company, Sinclair Broadcast Group, Inc. ("Sinclair"), two petitions were filed seeking reconsideration of the Commission's Order and Consent Decree, *Sinclair Broadcast Group*, Order and Consent Decree, 35 FCC Rcd 5877 (2020), and that one of those petitioners has also filed a petition to deny the license renewal application of another Sinclair subsidiary (File No. 0000115674), which petitions remain pending.
