This email is to submit the election by Gold Coast Broadcasting LLC ("Gold Coast") of the FM translator applications in Auction 83 that it will continue to prosecute. As shown below, it has elected to prosecute less than 50 total applications (the applications that it will prosecute are in **BOLD** below). Thus, no supplemental showing for non-Appendix A markets is necessary. As summarized below, in only one Appendix A market (Los Angeles) does it elect to prosecute more than one application. For that market, the showing required by the Commission's December 21, 2012 Public Notice is attached.

As set forth above, Gold Coast currently has 70 pending applications.

41 are in the LA market.
9 are in the Oxnard Ventura market.
1 is in the Santa Barbara market.
1 is in the Victor Valley market.
1 is in the San Bernardino market.
1 is in the San Diego market.
4 are not in any markets.
12 are on Ocean platforms and, as described below, are not believed to be in any market.

Of the 41 applications in the LA market, Gold Coast elects to continue to prosecute the following two (2) applications, for which the required showings are attached:

BNPFT-20030317GLY
BNPFT-20030317FTE

Of the 9 applications in the Oxnard-Ventura market, Gold Coast elects to retain one. As it is prosecuting only one application, no additional showing is necessary. The application that it will continue to prosecute is:

BNPFT-20030317HDO

Gold Coast wants to dismiss the other 8 applications. These applications are:

BNPFT-20030317HGU
BNPFT-20030317KLM
BNPFT-20030317HEC
BNPFT-20030317HCZ

BNPFT-20030317LEK - Santa Barbara
BNPFT-20030317LXB - Victor Valley
BNPFT-20030317MCL - San Bernardino
BNPFT-20030317 MUE - San Diego (Note that this application mistakenly listed San Bernardino as Community of License, but the translator is proposed to be located in the San Diego market, and thus will continue to be prosecuted. Its transmitter site is not in the San Bernardino Arbitron market)

Gold Coast has 4 pending applications that are not in any market. As these applications are not in any market, no additional showing is necessary to continue to prosecute these applications:

BNPFT-20030317FZI
BNPFT-20030317KTN
BNPFT-20030317KNG
BNPFT-20030317LLH

Gold Coast has the following 12 applications which are proposed to be on offshore oil platforms, which Gold Coast does not believe to be in any Arbitron market. However, if the Commission considers these to be in an Arbitron market, Gold Coast asks that they be dismissed. If the Commission agrees with Gold Coast's understanding that the market does not extend into the ocean, then it will continue to prosecute these applications:

BNPFT-20030317HBI
BNPFT-20030317GYZ
BNPFT-20030317HDP
