RE: Two Bay Non-Directional Antenna
NFE Project H721

To whom it may concern:

I have measured the antenna radiation center height above ground level and the differential GPS location of the two bay non-directional antenna located on the roof of Avondale High School at 2800 Waukegan Street in Auburn Hills, Michigan. Data was collected on the Michigan State Plane Coordinate System, NAD83 and NAVD88. Our measurements are listed as follows:

Radiation Center Above Ground Level: 112.25 feet

GPS Location of Tower: Lat: N 42° 37' 41.75"
Long: W 83° 13' 55.89"

Sincerely,
Nowak & Fraus Engineers

Chad Findley, P.E., P.S.
