12-radial HAAT is 349.1 m
60 dBu contour distance is 10.89 km
Red points and buffers represent cochannel points and their protected buffers
Orange points and buffers represent first adjacent points and their protected buffers
Green points and buffers represent second adjacent points and their protected buffers
Brown points and buffers represent IF points and their protected buffers
For all but IF points, three protection buffers are shown (as per 73.807)
The buffer this proposal is subject to based on its contour distance is the heavy buffer
The blue star indicates the location of this proposal
