TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Oklahoma Community Television, LLC ("OCT"), permittee of digital low power/companion television translator K18HX-D, Channel 18, Hollis, Oklahoma. OCT holds an outstanding permit for K18HX-D (BMPD TT-20091221ACU), authorizing a reduction in power. This instant application seeks a license to cover the outstanding permit for K18HX-D. Attached as Exhibit A is a calculation of the transmitter output power for the K18HX-D transmitter.

There are no special operating conditions or restrictions on the K18HX-D construction permit. However, OCT will, in cooperation with other tower users, reduce the power of K18HX-D or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed K18HX-D is operating pursuant to the Commission's rules.
