

MODIFIED EXHIBIT 12

Waiver Request of Section 74.1204

K256AJ Clarkston, WA 5 Watts ERP
Calvary Chapel of Twin Falls, Inc. 3/06

The proposed site is contained entirely inside the service contour of second-adjacent Short Form Mutual Exclusive FM Translators filed in March 2003.

BNPFT20030317IFI & BNPFT-20030317IRT

The proposed site of K256AJ is located within the service contours of 2003 second-adjacent short form FM Translator applications BNPFT-20030317IFI & BNPFT-20030317IRT, which are both located on Channel 254. The proposed modification of K256AJ will not affect the ability for either of these two mutual exclusive applicants to file a long form application on channel 254. Once a license for K256AJ is granted at the proposed site, Calvary Chapel of Twin Falls, Inc. has plans to relocate K256AJ to the tower of K207DO, Lewiston and then make a minor change to IF Channel 203. K207DO, Lewiston will be losing its frequency to Full Service FM KJCF, Clarkston when constructed.

Due to the length of time that the FCC is taking to remedy the Mutual Exclusive applications filed in March 2003, Calvary Chapel of Twin Falls, Inc. requests that the Commission grant this application for K256AJ, Clarkston.
