Dear Jim:

Attached is a license to cover that was sent out by Federal Express from my office to U.S. Bank in St. Louis on October 1, 2020. For whatever reason, U.S. Bank did not stamp it in until October 6, 2020. I am assuming this is due to a skeletal staff relative to the coronavirus. I believe it was received at U.S. Bank on October 2, 2020. In any event, for whatever reason, it was not received back in my office until yesterday, October 27, 2020. Accordingly, I apologize for the delay in getting this to you. Specifically, what was filed was an FCC Form 302-AM. Please advise if there are any further actions I need to take. Thank you again for your assistance.

Sincerely yours,

Aaron P. Shainis

Re: Absolute Broadcasting, LLC  
WGAM, Manchester, NH  
Facility ID No. 57088  
FRN: 0013567789

Dear Sir/Madam:

Transmitted herewith, on behalf of Absolute Broadcasting, LLC, are an original and two (2) copies of an FCC Form 302-AM with respect to the above-referenced station. Also attached is an extra copy with a stamped envelope, seeking that you send it back showing the filing. Also included on the FCC Form 159 is credit card information for the filing fee. If you have any questions, do not hesitate to contact the undersigned.

Sincerely yours,

Aaron P. Shainis

<b>SECTION II - APPLICANT INFORMATION</b>		
1. NAME OF APPLICANT Absolute Broadcasting, LLC		
MAILING ADDRESS 20 Trafalger Square Suite 610		
CITY Nashua	STATE NH	ZIP CODE 03063

2. This application is for:

☐ Commercial
 ☐ Noncommercial  
☐ AM Directional
 ☒ AM Non-Directional

Call letters WGAM	Community of License Manchester, NH	Construction Permit File No. BP-20180502ABK	Modification of Construction Permit File No(s). BP-20180502ABK	Expiration Date of Last Construction Permit 04/01/2022
----------------------	--	--	---	---

3. Is the station now operating pursuant to automatic program test authority in accordance with 47 C.F.R. Section 73.1620?

☐ Yes ☒ No

If No, explain in an Exhibit.

Exhibit No.

4. Have all the terms, conditions, and obligations set forth in the above described construction permit been fully met?

☒ Yes ☐ No

If No, state exceptions in an Exhibit.

Exhibit No.

5. Apart from the changes already reported, has any cause or circumstance arisen since the grant of the underlying construction permit which would result in any statement or representation contained in the construction permit application to be now incorrect?

☐ Yes ☒ No

If Yes, explain in an Exhibit.

Exhibit No.

6. Has the permittee filed its Ownership Report (FCC Form 323) or ownership certification in accordance with 47 C.F.R. Section 73.3615(b)?

☒ Yes ☐ No

☐ Does not apply

If No, explain in an Exhibit.

Exhibit No.

7. Has an adverse finding been made or an adverse final action been taken by any court or administrative body with respect to the applicant or parties to the application in a civil or criminal proceeding, brought under the provisions of any law relating to the following: any felony; mass media related antitrust or unfair competition; fraudulent statements to another governmental unit; or discrimination?

☐ Yes ☒ No

If the answer is Yes, attach as an Exhibit a full disclosure of the persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), and the disposition of the litigation. Where the requisite information has been earlier disclosed in connection with another application or as required by 47 U.S.C. Section 1.65(c), the applicant need only provide: (i) an identification of that previous submission by reference to the file number in the case of an application, the call letters of the station regarding which the application or Section 1.65 information was filed, and the date of filing; and (ii) the disposition of the previously reported matter.

Exhibit No.

8. Does the applicant, or any party to the application, have a petition on file to migrate to the expanded band (1605-1705 kHz) or a permit or license either in the existing band or expanded band that is held in combination (pursuant to the 5 year holding period allowed) with the AM facility proposed to be modified herein?

☐ Yes ☒ No

If Yes, provide particulars as an Exhibit.

Exhibit No.

The APPLICANT hereby waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because use of the same, whether by license or otherwise, and requests and authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended).

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations and that all the exhibits are a material part hereof and are incorporated herein as set out in full in

### CERTIFICATION

1. By checking Yes, the applicant certifies, that, in the case of an individual applicant, he or she is not subject to a denial of federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862, or, in the case of a non-individual applicant (e.g., corporation, partnership or other unincorporated association), no party to the application is subject to a denial of federal benefits that includes FCC benefits pursuant to that section. For the definition of a "party" for these purposes, see 47 C.F.R. Section 1.2002(b).

☒ Yes ☐ No

2. I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

### FCC NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT AND THE PAPERWORK REDUCTION ACT

The solicitation of personal information requested in this application is authorized by the Communications Act of 1934, as amended. The Commission will use the information provided in this form to determine whether grant of the application is in the public interest. In reaching that determination, or for law enforcement purposes, it may become necessary to refer personal information contained in this form to another government agency. In addition, all information provided in this form will be available for public inspection. If information requested on the form is not provided, the application may be returned without action having been taken upon it or its processing may be delayed while a request is made to provide the missing information. Your response is required to obtain the requested authorization.

Public reporting burden for this collection of information is estimated to average 639 hours and 53 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, can be sent to the Federal Communications Commission, Records Management Branch, Paperwork Reduction Project (3060-0627), Washington, D. C. 20554. Do NOT send completed forms to this address.

THE FOREGOING NOTICE IS REQUIRED BY THE PRIVACY ACT OF 1974, P.L. 93-579, DECEMBER 31, 1974, 5 U.S.C. 552a(e)(3), AND THE PAPERWORK REDUCTION ACT OF 1980, P.L. 96-511, DECEMBER 11, 1980, 44 U.S.C. 3507.

## **Broadcast Consulting, LLC.**

377 Chestnut Avenue | New Windsor, NY 12553 | 845-418-5065

### **ENGINEERING STATEMENT**

**IN SUPPORT OF LICENSE TO COVER AND DIRECT MEASUREMENT OF POWER**

**CONSTRUCTION PERMIT BP-20180502ABK**

**WGAM, MANCHESTER, NEW HAMPSHIRE**

I, Thomas R. Ray, III, am President of Tom Ray Broadcast Consulting, LLC. Tom Ray Broadcast Consulting, LLC has been retained by Absolute Broadcasting, LLC to fulfill this Construction Permit. I hold FCC General Class license PG-017214, Amateur Extra Class license W2TRR, am Certified by the Society of Broadcast Engineers as a Certified Professional Broadcast Engineer with sub Certifications in Digital Radio, Broadcast and AM Directional Antennas. My works are a matter of record before the Commission.

WGAM is licensed to Manchester, New Hampshire on a frequency of 1250 kHz, with day and night power of 5 kW operating into separate antennas day and night. It has become necessary to deconstruct 4 of the 5 towers and take WGAM to 670 Watts daytime, 100 Watts nighttime on the remaining tower, formerly tower number 1 in both the daytime and nighttime arrays.

Towers 2 through 5 were deconstructed, and the FM translator associated with WGAM moved to the remaining tower number 1.

Tower base impedance was measured with an Array Solutions Power Aim 120 Vector Network Analyzer, serial number 1230, and found to be 63.1 Ohms at +j95.8 Ohms reactance. A matching network was constructed to match this impedance to the 50 Ohm transmission line from the transmitter.

A web enabled remote control has been installed that synchronizes its time to Internet based Master Clocks and will email/text personnel to alert them of any operational problems. This system will handle day/night power changes.

All conditions on the Construction Permit have been met, as detailed later in this statement. The station has been constructed per the Construction Permit.

Conditions:

- 1) >>Permittee shall install a type accepted transmitter, or submit application (FCC Form 301) along with data prescribed in Section 73.1660(b) should non-type accepted transmitter be proposed.<<

The transmitter installed is type accepted and is an Armstrong X-1000B. A remote control has been installed that will time sync to an Internet based master clock to handle power changes. This condition has been met.

- 2) >>A license application (FCC Form 302) to cover this construction permit must be filed with the Commission pursuant to Section 73.3536 of the Rules before the permit expires.<<

The expiration date on the Construction Permit is August 10, 2021. This Condition has been met.

- 3) >>Licensee shall be responsible for satisfying all reasonable complaints of blanketing interference within the 1 V/m contour as required by Section 73.88 of the Commission's rules.<<

The licensee understands their obligation in regards to this Condition and will fully address any blanketing interference complaints. This condition has been met.

- 4) >>Ground system consists of 120 equally spaced, buried, copper radials about the base of each tower, each 60.4 meters in length except where intersecting radials are shortened and bonded to a transverse copper strap midway between adjacent towers.<<

The ground system is as specified, with the exception that there are no longer adjacent towers. The ground system and ground radials from the other towers still remains and will remain as part of the system for WGAM. This Condition has been met.

- 5) >>Before program tests are authorized, licensee shall dismantle the four existing unused towers, or in lieu thereof, submit a proof of performance to establish that the proposed radiation pattern is essentially omnidirectional. The proof shall include at least six approximately equally-spaced radials with sufficient close-in points that the inverse distance fields can be clearly established.<<

The four existing unused towers have been dismantled and have been hauled away as scrap. Therefore, there is no reason to perform a non-directional Proof of Performance on WGAM. This Condition has been met.

- 6) >>Prior to construction of the tower authorized herein, permittee shall notify AM Station WGIR (ID# 35237) so that, if necessary that AM station: may determine operating power by a method described in Section 73.51(a)(1) or (d), and/or request temporary authority from the Commission in Washington, D.C. to operate with parameters at variance in order to maintain monitoring point field strengths within authorized limits. Permittee shall be responsible for installation and continued maintenance of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the AM station. Both prior to construction of the tower and subsequent to the installation of all appurtenances thereon, a partial proof of performance, as defined by Section 73.154(a) of the Commission's Rules, shall be conducted to establish that the AM array has not been adversely affected and prior to or simultaneous with the filing of the application for license to cover this permit, the results submitted to the Commission.<<

The tower authorized herein was constructed and has been standing since either 1959 or 1960. It has been determined that the electrical length of the deconstructed towers, and the electrical length of the tower authorized by this Construction Permit, is approximately 1/8 Wavelength at 610 kHz, WGIR's frequency. None of the WGAM towers contained detuning components for WGIR. Working with WGIR's Engineering staff (iHeart Radio), it was determined that the work being done on WGAM would have little, if any, effect on WGIR's operation. A statement was issued to WGAM via email by Michael Guidotti, Senior VP-Engineering/Northeast Region of iHeart radio (the full email is attached to this document) which states:

"Tom,

On September 4, 2020, daytime and nighttime monitoring point measurements were taken on WGIR Manchester NH to see if the changes authorized in WGAM Construction permit BP-20180502ABK had any affect on the operation of WGIR.

We see no material changes in the monitoring point levels and therefore believe the changes at WGAM had no effect on WGIR.

Mike

**Mike Guidotti**

Senior VP - Engineering / Northeast Region

Radio | Podcasts | Digital | Social | Influencers | Data | Events"

It has therefore been determined that this Condition has been met.

Seeing as all conditions have been met, Absolute Broadcasting, LLC respectfully requests Program Test Authority and subsequent licensing of the WGAM facility at 670 Watts daytime, 100 Watts nighttime.
