Re: Just Because, Inc. (JBI)
WGFP (AM), Webster, MA
Facility Identification Number: 50232
Special Temporary Authority (STA)
BESTA- 20160418AAX

Dear Mr. Sims:

This is in reference to the request filed on April 18, 2016. JBI requests a further extension of the STA granted on April 12, 2012, to operate with a temporary cylindrical base insulated monopole due to removal of the licensed tower to allow for operation of experimental station WX3CFA, 1630 kHz, Webber, MA (BPEX-20130402ACY).¹ In support of the request, JBI states that additional time is needed to complete the HEBA antenna performance and efficiency evaluation before filing an FCC Form 301 application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED and station WGFP(AM) may continue to operate with the following facilities:

| | |
|--------------------------|-------------------------------------------|
| Frequency | 940 KHz |
| Geographical Coordinates | 42° 03' 17" NL, 71° 49' 59" WL (NAD 1927) |
| Hours of operation | Day and Night |

¹ WGFP(AM) is licensed for ND operation on 940 kHz with 1 kW day and 0.004 kW night.

Operating power
Antenna type
Overall height

Not to exceed 1 kW day/0.004 kW night
Cylindrical base insulated monopole
14.8 meters

It will be necessary to further reduce power or cease operation if complaints of interference are received. JBI must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. JBI must file an FCC Form 301 application after testing has been completed.

This authority expires on **November 16, 2016**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a long horizontal stroke.

Joseph Szczesny, Engineer
