CUMULUS LICENSING LLC
NEW FM STATION
CH 244A - 96.7 MHZ - 6.0 KW
HUMBOLDT, NEBRASKA
December 2005

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Cumulus Licensing LLC ("Cumulus"), permittee of a new FM station on Channel 244A at Humboldt, Nebraska. Cumulus is proposing to modify the permit by relocating the station to another site and making other changes.¹

Cumulus is proposing to construct a new tower for the Humboldt, Nebraska facility. As such, the Federal Aviation Administration ("FAA") was apprised of this proposal. The tower on which the new FM antenna is to be mounted will be registered with the FCC once the FAA issues its anticipated Determination of No Hazard. All other necessary documentation used to certify the technical portion of FCC Form 301 has been forwarded to Cumulus and is available to the Commission upon request.

1) Cumulus has petitioned the Commission to upgrade the Humboldt, Nebraska station to Channel 245C2 and re-allot it to Effingham, Kansas. The proposed changes are not considered an impediment to this instant modification application.
