

EXHIBIT 13

Waiver Request of Section 74.1204

W236AL Summerfield (Kernersville) North Carolina

Minor Site Change

38 Watts ERP – April 2010

Calvary Chapel of Twin Falls, Inc.

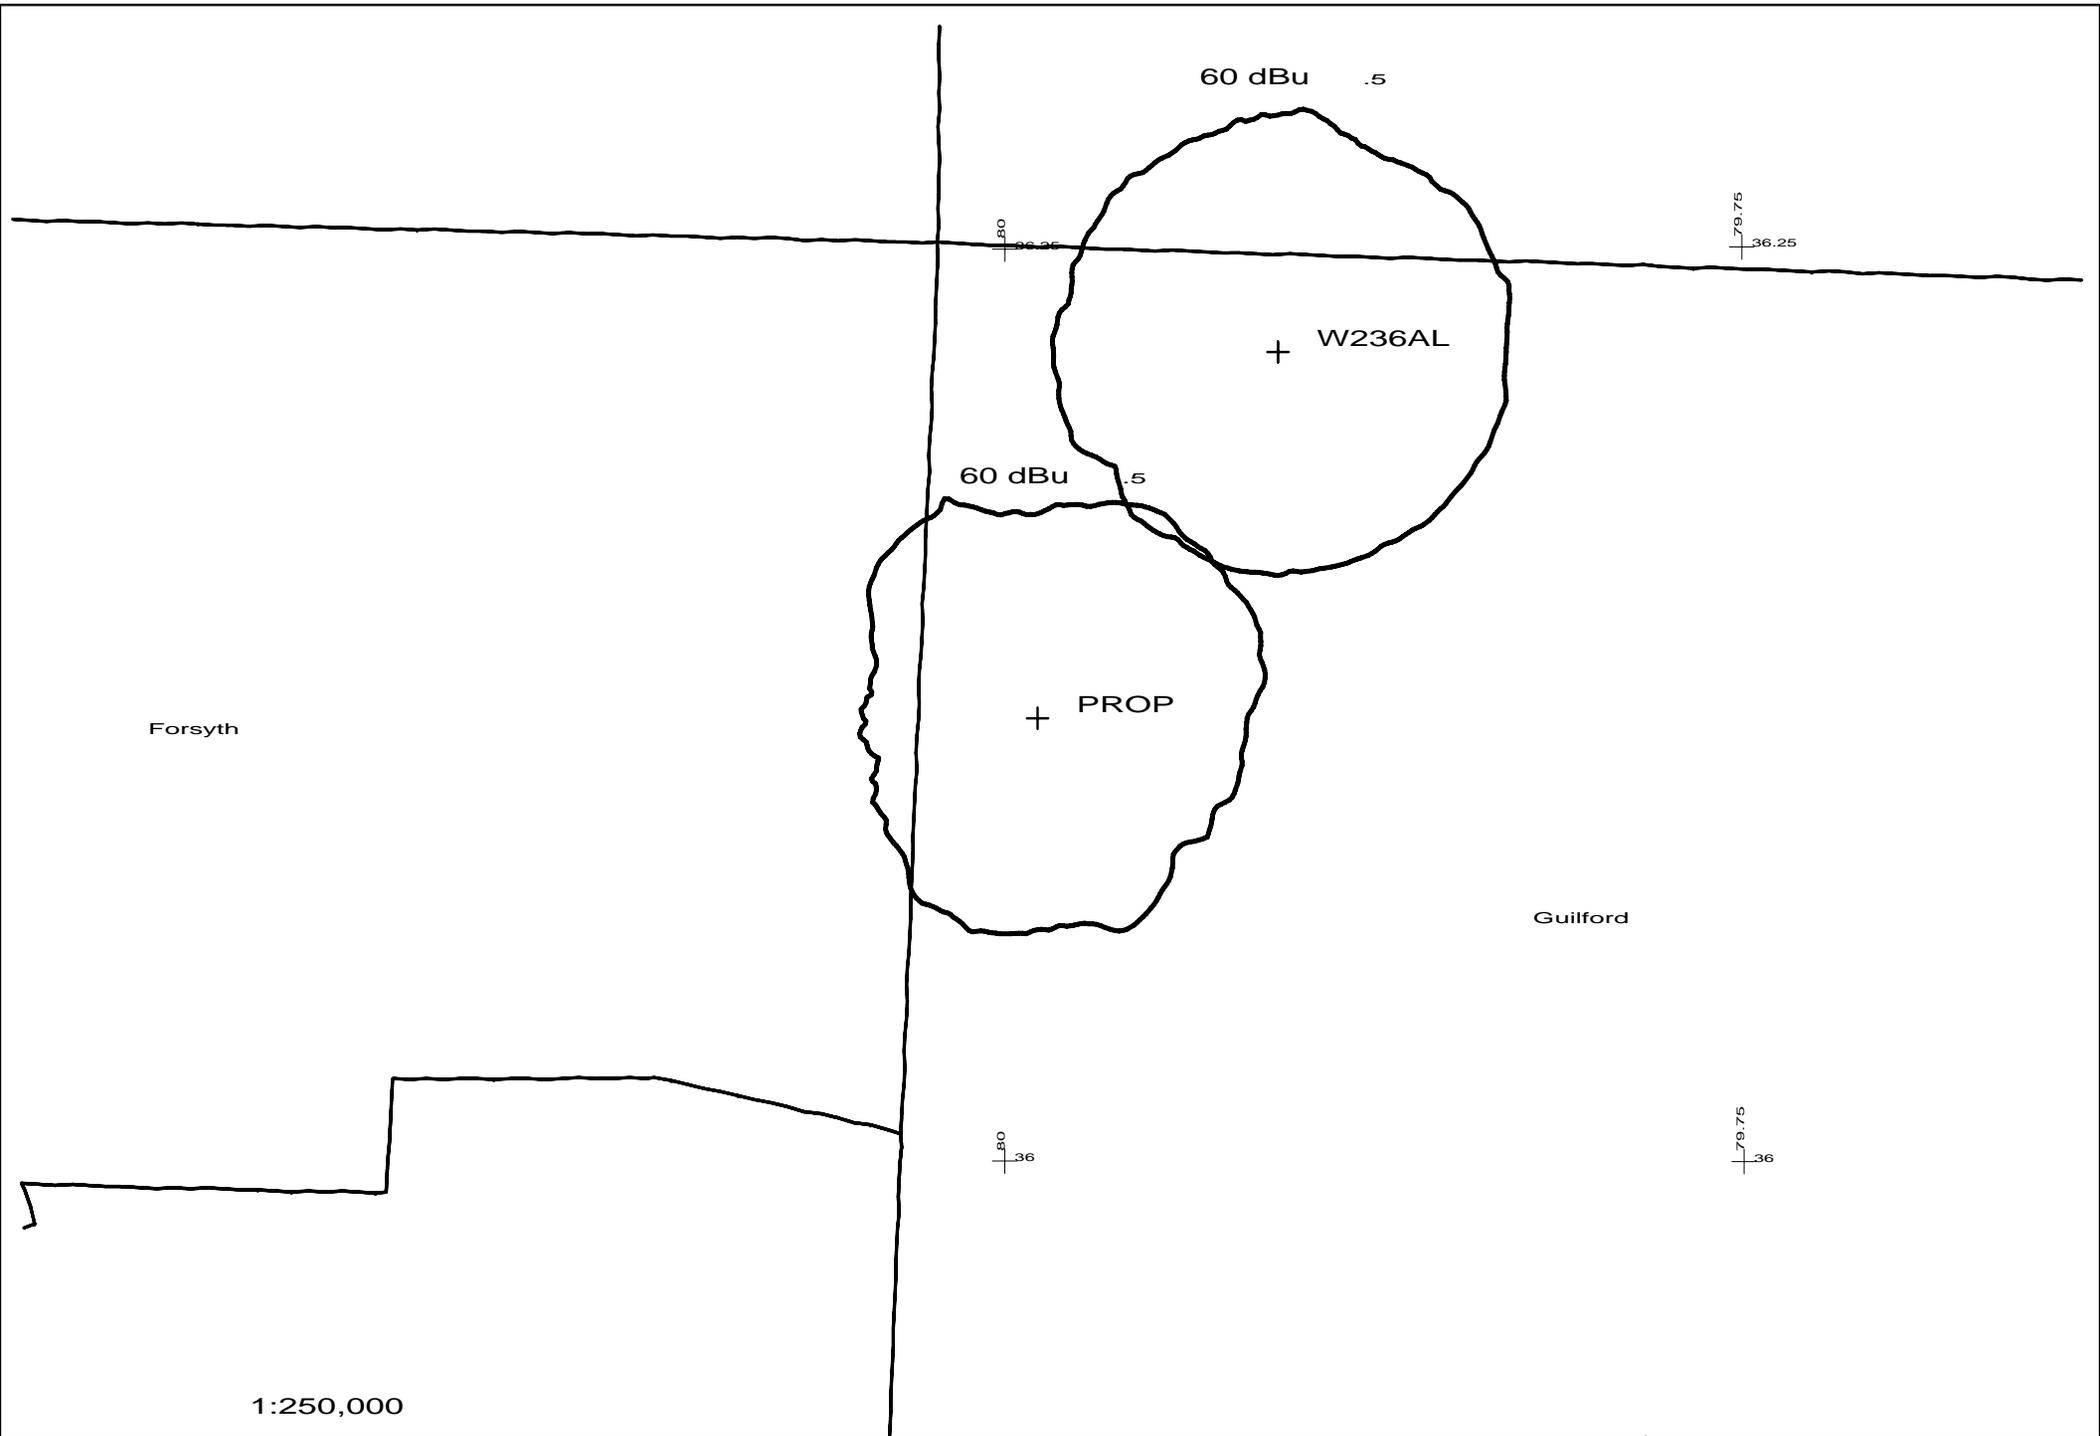

The proposed site is contained entirely inside the service contour of third-adjacent FM station WPTI Eden, NC and second-adjacent FM station WHPE-FM High Point, NC

WPTI

The proposed site is contained entirely inside the service contour of third-adjacent FM Station WPTI, 233C1, 100kW, Eden, NC. The level of least arriving protected F(50,50) signal is 82.1-dBu. Using the Undesired-to-Desired method for calculating proposed interference, the interfering contour is 122.1-dBu (free-space contour method employed). The interfering signal would, in the worst case at the maximum radial extend 35 meters, or 115 feet, from the base of the tower. Attached is a portion of the USGS Guilford (NC) Quadrangle showing a 500 foot interference contour marked in yellow. This tower is not located in a highly populated area and there are no residences, businesses or major roadways within the interference contour. Calvary Chapel of Twin Falls, Inc. respectfully requests a waiver of the FM translator contour overlap regulations with respect to third-adjacent channel WPTI.

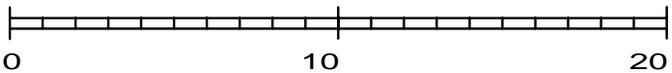

WHPE-FM

The proposed site is contained entirely inside the service contour of second-adjacent FM Station WHPE-FM, 238C1, 100kW, High Point, NC. The level of least arriving protected F(50,50) signal is 79.5-dBu. Using the Undesired-to-Desired method for calculating proposed interference, the interfering contour is 119.5-dBu (free-space contour method employed). The interfering signal would, in the worst case at the maximum radial extend 47 meters, or 155 feet, from the base of the tower. Attached is a portion of the USGS Guilford (NC) Quadrangle showing a 500 foot interference contour marked in yellow. This tower is not located in a highly populated area and there are no residences, businesses or major roadways within the interference contour. Calvary Chapel of Twin Falls, Inc. respectfully requests a waiver of the FM translator contour overlap regulations with respect to second-adjacent WHPE-FM.
