

MULTIPLE OWNERSHIP ISSUES

The instant application proposes the assignment of the licenses for Radio Stations WNDV-FM (92.9 MHz), South Bend, IN (FCC Facility ID No. 41675); WSSM(FM) (97.7 MHz) (FCC Facility ID No. 49558), Goshen, IN; and WSMM(FM) (102.3 MHz) (FCC Facility ID No. 63772), New Carlisle, IN (collectively, the “*South Bend Stations*”) from ARTISTIC MEDIA PARTNERS, INC. (“AMP”) to SOUND MANAGEMENT, LLC (“*Sound*”). AMP presently is the licensee of Radio Stations Radio WAZY-FM, (96.5 MHz) (FCC Facility ID No. 68970), Lafayette, IN; WBPE(FM), (95.3 MHz) (FCC Facility ID No. 6336), Brookston, IN; WBWB(FM), (96.7 MHz) (FCC Facility ID No. 68968), Bloomington, IN; WHCC(FM), (105.1 MHz) (FCC Facility ID No. 33540), Ellettsville, IN; WNDV-FM, (92.9 MHz) (FCC Facility ID No. 41675), South Bend, IN; WDND(AM), (1620 kHz) (FCC Facility ID No. 87112), South Bend, IN; WSHP(FM), (95.7 MHz) (FCC Facility ID No. 68985), Attica, IN; WYCM (AM), (1410 kHz) (FCC Facility ID No. 21512), Lafayette, IN; WSMM(FM), (102.3 MHz) (FCC Facility ID No. 63772), New Carlisle, IN; and WSSM(FM) (97.7 MHz) (FCC Facility ID No. 49558), Goshen, IN. (collectively, the “*AMP Stations*”). The South Bend Stations all function as elements of the South Bend, Indiana. See, accompanying Engineering Statement Stuart Graham of Graham Brock, Inc. (“*GBI Report*”) that was prepared on October 16, 2014.

Sound is the proposed purchaser of the South Bend Stations. The ownership of Sound includes Arthur A. Angotti, III (“AAA³”), the President, Chief Executive Officer, and a minority shareholder of AMP, as well as AMP itself, and Barbara Angotti, also a minority shareholder of AMP. In essence, this is a *pro forma* assignment because the current ownership of AMP will participate in the ownership of Sound. The difference in ownership between AMP and Sound being that Sound will be controlled by AAA³, rather than Arthur A. Angotti, AAA³'s father and majority shareholder of AMP. Except of the existing ownership interests of AMP in the South Bend Stations,^{1/} Sound shall have no direct ownership in the South Bend radio market. AAA³ will retain his ownership in AMP and will continue serving as an officer of AMP.

Section 73.3555(a)(1)(ii) of the Commission's rules presently provides that in markets with between 30 and 44 more full-power commercial and non-commercial radio

^{1/} As indicated above, AMP is the licensee of Radio Station WDND(AM)(1620 kHz), South Bend, Indiana (FCC Facility ID No. 87112). AMP shall remain the licensee of WDND, and Sound will have no interest in WDND, per se, except for the ownership interest of AMP in Sound.

stations, a party may own, operate, or control up to seven (7) commercial radio stations, not more than four (4) of which are in the same service (AM or FM).

In fact, according to the GBI Report a total of thirty-five (35) radio stations serve the South Bend market. Should this application be granted, Sound will control three FM stations in South Bend and have an attributable interest in one AM station. Accordingly, AMP respectfully submits that a grant of this application will not cause either AMP or Sound to violate Section 73.3555 of the Commission's rules, nor place the parties in violation of any other of the Commission's current rules and policies pertaining to multiple station ownership or operation. Although an assignment of the South Bend Stations is contemplated, the result of the proposed assignment effectively maintains the *status quo* in the South Bend radio market.

In summary, Sound's proposed acquisition of the South Bend Stations is consistent with the Commission's multiple ownership rules because the proposed acquisition will result in Assignee having attributable interests in four (4) of thirty-five (35) broadcast radio stations in the applicable market. *See* GBI Report.

TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared on behalf of Sound Management LLC (“Sound Management”), proposed assignee of FM stations WNDV-FM, Channel 225B, South Bend, Indiana; WSMM, Channel 272A, New Carlisle, Indiana; and WSSM, Channel 249A, Goshen, Indiana.

2. WNDV-FM and WSMM are licensed to a community in the South Bend, Indiana Arbitron Market, (“South Bend City Market”). WSSM is not a metro station in the South Bend City Market, but is considered home to the market. WNDV-FM and WSSM have city grade contours in common. Therefore, this review will verify compliance of commonly owned stations in both rated and non-rated markets.

SOUTH BEND, INDIANA ARBITRON/BIA MARKET REVIEW

3. As shown on Exhibit 1, there are twenty one AM and FM (commercial and non-commercial) stations in the South Bend City Market (Market #182). Sound Management would be in control of three FM stations in the market. The number of stations depicted falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission’s rules. At this level, common ownership or control of up to six stations, with no more than four in the same service, is permissible. Therefore, Sound Management is in compliance in the rated South Bend City Market.

REVISED CONTOUR OVERLAP ANALYSIS

4. Exhibit #2 is a map depicting the city grade contours of the commonly owned facilities. The WNDV-FM city grade contour has an area of common service with WSSM. Based on the area of overlap of these facilities, a single distinct overlap market is created ("Contour Radio Market").

5. A study has been conducted to determine if ownership of WNDV-FM and WSSM complies with §73.3555 of the Commission's rules. In the Contour Radio Market we will determine the number of contributing stations which have sites within, or provide city grade service to, the Contour Radio Market boundary. To this total, we will then add the subject stations in each market to demonstrate compliance with the rules. Only those stations with transmitter sites within 92.0 kilometers will be considered as contributors to the market. No other stations in which Sound Management has an interest will be considered unless it is a subject station in the market under review.

6. Exhibit #3 is a depiction of the stations (commercial and non-commercial) providing service to the Radio Market boundary. Exhibit #4 is a tabulation of the stations in the Radio Market. A total of thirty five stations are shown, including the two subject stations. The number of stations in the Radio Market falls in the thirty and forty-four stations tier of §73.3555(a)(1)(ii) of the Commission's rules. At this level, common ownership or control of up to seven stations, with no more than four in the same service, is permissible. As such, Sound Management is in compliance in the non-rated Radio Market.

7. Based on the compliance shown in both rated and non-rated markets, Sound Management LLC is in compliance with §73.3555 of the rules, with regard to the markets reviewed.

8. The foregoing technical statement was prepared on behalf of Sound Management LLC, by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the CDBS database. Data regarding the relevant Arbitron market was determined using the BIA MEDIA Access Pro Version 4.6. We assume no liability for errors or omissions in those databases which may be adverse to the information contained herein.
