

Exhibit E-10

This exhibit consists of this explanatory text and the two attached computer generated contour maps. These maps compare the 60 dBu service contour of the parent station (KQYK at Lake Crystal, Minnesota) to the proposed 60 dBu service contour of the translator facility. As these two maps demonstrate, the predicted 60 dBu service contour of the proposed facility would lie entirely within the predicted 60 dBu service contour of KQYK.

KQYK

BLH20050914AAE
Latitude: 44-03-06 N
Longitude: 094-17-59 W
ERP: 6.00 kW
Channel: 239
Frequency: 95.7 MHz
AMSL Height: 407.0 m
Horiz. Pattern: Directional
Vert. Pattern: No
Prop Model: FCC Method
