Mr. Rogow:

If you keep your service contour entirely contained within the arc specified to that of the currently approved facilities, we would not seek additional coordination with Mexico=> "Amend our application so that our F(50,90) 43 dBu contour does not extend between 112 degrees and 175 degrees, which is the entire arc from our transmitter site to the entire Mexican border within 400 km of our transmitter site"

Sincerely,
James McLuckie

Jim,

Please let me know to what degree I should limit our power to Mexico to not require additional coordination with Mexico. Thank you.

Lawrence Rogow
