W215BS (LIC), Hinckley, OH Facility ID 142423
Minor Modification of BLFT-20070112AHV

EXHIBIT 17

March 2013

Environment Impact & RFR Compliance Statement

FM translator W215BS is located at an established communications site that is in compliance with all environmental impact requirements.

The minor modification of W215BS proposes an increase in the ERP to .250 kW (DA, H&V) remaining at the antenna COR AGL of 130 meters. For a worst case estimation at 2 meters above ground level at the base of the tower the RFR is no more than **0.5%** of the general population/uncontrolled MPE limit.

There are no other broadcast facilities at the site.

RFR hazard signs are posted at the site and the site has restricted access to only authorized personnel. The applicant certifies that in cooperation with other users of the site all authorized personnel will be protected from RFR exposure in excess of FCC guidelines while accessing any controlled exposure area, including the tower, by either reducing power or ceasing operations. Information pertaining to the contact representative of the facility will be posted.
