In re: Low Power Television Application of:
Western Kane County Special
Service District #1
Channel 27, Kanab, UT.
File number BPD TT-20090731ABB
Facility Id No.:167638

Dear Applicant:

On September 3, 2009, the licensee as addressed above was sent the following 60 day letter advising of the need to register the tower with the FAA and amend the proposed application with the tower registration information.

We are currently processing your above-referenced application. Our preliminary engineering review reveals that the antenna as specified in the above referenced application requires registration with the FAA and the registration information amended to the proposed facilities pending application. It is noted that the licensee has indicated on the proposed construction permit that the registration with the FAA has been filed; therefore, in addition to the usual 30 days to comply with this letter, we are offering an additional 30 days for the FAA to be able to respond to the licensee's registration request.

You were given the opportunity to file a minor amendment to resolve the specified antenna registration issue within (60) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records indicate that as of March 8, 2010, over 6 months after the date of the above referenced letter, the proposed application has not been amended with the tower registration information; therefore, the above referenced application is considered incomplete and IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
Associate Chief
