Special Temporary Authority  
BESTA-20150127ADU

Dear Licensee

This is in reference to the request filed January 27, 2015, on behalf of Educational Media Foundation ("EMF"). EMF explains that KSRD continues to operate at reduced power due to the failure of some transmitter components, and that repair parts have been ordered. EMF requests an extension of the October 27, 2014 Special Temporary Authority (STA) for continued operations at reduced power until repairs can be completed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for STA extension IS HEREBY GRANTED. Station KSRD may continue to operate with reduced power. EMF must notify the Commission when licensed operation is restored. EMF must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **August 5, 2015**.

Sincerely,

A handwritten signature in cursive script, appearing to read "Dale Bickel".
