Grant Date: May 04, 2011

This license expires 3:00 a.m.
local time, June 01, 2014.

This license covers permit no.: BPFT-20101230AAB

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Callsign: W241AW

License No.: BLFT-20110427AAF

Name of Licensee: AUBURN BROADCASTING, INC.

Principal community to be served: NY-GENEVA

Primary Station: WGVA (AM) , Frequency 1240 kHz, GENEVA, NY

Via: Microwave

Frequency (MHz): 96.1

Channel: 241

Hours of Operation: Unlimited

Antenna Coordinates: North Latitude: 42 deg 48 min 22 sec

West Longitude: 76 deg 50 min 47 sec

Transmitter: Type Accepted. See Sections 73.1660, 74.1250 of the Commission's Rules.

Transmitter output power: 0.137 kW

Antenna type: (directional or non-directional): Directional
Description: SCA CA-2V

Major lobe directions 340
(degrees true):

Horizontally Polarized Antenna:	Vertically Polarized Antenna:
---------------------------------------	-------------------------------------

Effective radiated power in the Horizontal Plane (kw):	0.22
--	------

Height of radiation center above ground (Meters):	80
---	----

Height of radiation center above mean sea level (Meters):	293
---	-----

Antenna structure registration number: 1007043

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Direct Measurement of Power

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.
