

Directional Antenna Installation Certification

In compliance with section 73.316(c)(2)(vii) of the FCC rules, and to satisfy condition #4 of the WTSX Construction Permit (BPH-20081104AFA), this is to certify that the ERI model LP-2E-DA directional antenna for WTSX, Lehman Township, PA, operating on channel 244 (96.7 MHz), has been erected according to the design and installation instructions provided by the antenna manufacturer, Electronics Research, Inc., Chandler, IN.

The installation was supervised by the undersigned, Dominic L. Bordonaro. I have been active as a broadcast engineer for the past 36 years in both AM and FM broadcasting, including as the Chief Engineer of the Cox Media Group Connecticut radio stations.

I hereby certify under penalty of perjury that the foregoing statements are true and correct.

Dominic L. Bordonaro
