Re: WUVS-LP, Muskegon, Michigan
Facility Identification Number: 125796
West Michigan Community Help Network
Special Temporary Authorization

Dear Mr. Billings:

This is in reference to the request filed February 13, 2008, on behalf of West Michigan Community Help Network ("WMCHN"). WMCHN requests extension of the special temporary authority ("STA") granted on July 20, 2007, to operate Station WUVS-LP with temporary facilities.¹ In support of the request, WMCHN states that it has been given an eviction notice to vacate the licensed site because the building is being closed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that Construction Permit BPL-20080213ADX was granted on February 25, 2008; thus, the licensee has made substantial progress toward restoring licensed operation and extension of STA is warranted to allow time for construction of the newly authorized facilities.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WUVS-LP

¹ WUVS-LP is licensed for operation on Channel 279L1 (103.7 MHz) with effective radiated power of 0.1 kilowatt (H&V) and antenna height above average terrain of 26 meters.

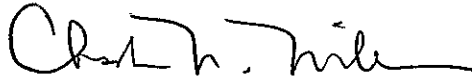

may continue to operate with the following facilities:

Geographic coordinates:	43° 14' 19" N, 86° 15' 5" W (NAD 1927)
Channel	279 (103.7 MHz)
Effective radiated power:	0.1 kilowatt (H&V)
Antenna height:	
above ground:	25 meters
above mean sea level:	212 meters
Above average terrain:	22 meters

It is anticipated that WMCHN will shortly file an application for license to cover its construction permit, and that further extension of this authority will not be necessary. WMCHN must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **February 1, 2009**.

Sincerely,

Charles N. Miller, Engineer
