

Exhibit 2 - Foothills Public Radio, Inc.

Statement of Educational Objective

Applicant will operate a non-profit, non-commercial FM broadcast station for the purpose of providing cultural enrichment and educational programming that is otherwise generally unavailable to the residents of our service area.

Examples include in depth programs of culturally significant musical genres such as classical music, jazz, Americana, foreign and world music, and music representative of American roots. Some programs will be presented with discussion by knowledgeable program hosts, while others will be more music-intensive.

Applicant will also seek to involve members of the community in the station's programming efforts by soliciting feedback on program offerings and training volunteers in the broadcasting arts to enable them to host responsible discussion and/or music programs of their own creation. Minorities and women will be specifically encouraged to participate.
