

## Screen 3 - Results

### Results of Calculation

**Distance to Contour = 0.004 kilometers**

[Back to Numeric Entries](#)

[Back to Initial Selections](#)

#### **Input Data** from Screens 1 and 2

ERP = 0.024 kW

HAAT = 107.0 meters

Field Strength = 137.8 dBu

**Distances** are in **meters and kilometers**

**Power** is in **kW (kilowatts)**

**Field Strength** is in **dBu**

**FM and NTSC TV Channels 2 through 6**

**F(50,10)** for interfering contours selected

**Find Distance, given a Field Strength**
