Subject: RE: 20110826AAD

I will file to amend BDFCDTL-20060329AGG to raise the antenna.

Dismiss BDFCDTL-20110826AAD & BDISDTL-20100825AAM and I will refile BDFCDTL-20110826AAD and a minor mod.

Subject: 20110826AAD

The station for the subject application already has a flash-cut permit (BDFCDTL-20060329AGG), the pending flash-cut subject application (BDFCDTL-20110826AAD) and a pending digital displacement application (BDISDTL-20100825AAM). They can have only one of these. If they choose to keep the flash-cut permit and want to make changes to the permit, they must file a modification application and not another flash-cut application. Just let us know your choice.
Melvin
