

Affidavit of Qualified Engineer

I, Thomas L. Bosscher, hereby certify as follows:

1. Under employment of Cornerstone University, I supervised the installation of the directional antenna for WCXG, 89.7, Grand Rapids, Michigan as authorized in the FCC construction Permit BPED20141010AAD. The directional antenna was installed at the proper height on the tower, and I confirmed the azimuth angle of the antenna to meet the directional obligations specified in the construction permit. A surveyor then further verified the azimuth of the antenna. The directional antenna has been installed in accordance with the manufacturer's instructions and should perform as the manufacturer has specified.
2. I have been employed in broadcast engineering for forty years. I am a member of the Society of Broadcast Engineers and I sit on the engineering board of the Michigan Association of Broadcasters. I hold a life time FCC general Radio telephone license and I also hold an amateur Extra class license.

July 28, 2015

Thomas L. Bosscher

Director of Broadcast Engineering

Cornerstone University

1159 East Beltline N.E.
