WAC is a nonprofit that has been active in our small town enhancing arts, arts education and artistic expression since 1990. We are made up of a board of many people from all aspects of the arts including musicians, painters, sculptors, woodworkers, and performance artists. We have raised money for instruments for area kids, provided funding for local performances and filled our empty downtown windows with art. We are excited to start a radio station for everyone!

I apologize for making this mistake. I had to list a single person for the FRN # and got confused. I assure you that I do not want to own a radio station! The station will be a small community station for everyone. We are dedicated to having lots of our community involved.

Thank you so much for considering us.
