

REPORT OF SURVEY:

WZCO Antenna Alignment – 215 Burney Road

Bladenboro, North Carolina

I certify that this survey was done under my responsible charge in compliance with the Standards of Practice for Land Surveying (21-56.1600) for Kirschner Broadcast Services, LLC for the purpose of aligning three (3) antenna faces per the manufacturer's instructions.

I hereby certify that I verified the alignment of the three faces (as assembled at the base of the tower) as follows:

Face "A" Orientation: 72 degrees true.

Face "B" Orientation: 165 degrees true.

Face "C" Orientation: 251 degrees true.

Upon completion of the installation of the antenna assembly at the specified height, I provided three azimuth points (one per face) approximately 2,000 feet from the tower and oriented per the azimuths shown above.

This 26th day of March, 2012.

REPORT OF SURVEY:

WCZO Antenna Alignment – 215 Burney Road

Bladenboro, North Carolina

I certify that this survey was done under my responsible charge in compliance with the Standards of Practice for Land Surveying (21-56.1600) for Kirschner Broadcast Services, LLC for the purpose of aligning one (1) antenna face per the manufacturer's instructions.

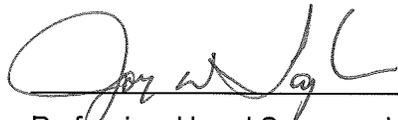

I hereby certify that I verified the alignment of the JFHD Installation (as assembled at the base of the tower) as follows:

Face "A" Orientation: 205 degrees true.

Prior to the installation of the antenna assembly at the specified height, I provided one GPS azimuth point approximately 1,200 feet from the tower and oriented per the azimuth shown above.

This 15th day of August, 2013.
