During the week of March 1, 2010, I supervised the installation of a new Propagation Systems model PSIFHR-3-DA, three bay, directional, antenna, for WIKZ, 95.1 MHz, Chambersburg, PA.

I certify that this antenna was installed according to the manufacturer's drawings and instructions.

I have been engaged in the maintenance and installation of broadcast facilities for more than 35 years, including directional FM antennas, and my qualifications are a matter of record before the FCC.

A handwritten signature in blue ink, appearing to read "William Weeks", is placed over a light gray rectangular background.
