Re: CC Licenses LLC (CCL)  
WHYN(AM), Springfield, MA  
Facility Identification Number: 55757  
Special Temporary Authority (STA)  
BESTA-20161114AAD

Dear Mr. Davis:

This is in reference to the request filed on November 14, 2016. CCL requests a further extension of the STA granted on November 5, 2015, to operate ND or with parameters at variance to allow time to file required FCC Form 302 application.<sup>1</sup> In support of the request, CCL states that additional time is needed to prepare and file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for an extension of the STA IS HEREBY GRANTED, and CCL may continue to operate ND using tower #2 (ASRN 1003894) using a maximum of 1.25 kW (day) and 0.25 kW (night), or with parameters at variance using reduced power if needed to

<sup>1</sup> WHYN(AM) is licensed for DA operation on 560 kHz with 5 kW day and 1 kW night.

maintain monitor points within licensed tolerances. It will be necessary to further reduce or cease operation if complaints of interference are received. CCL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.13 10. We anticipate that the application will be filed before the expiration date shown below.

This authority expires on **June 13, 2017**.
