In re: K269GG, Austin, TX  
BMPFT-20161031AEQ  
Facility ID No. 148525

Dear Applicant:

This refers to the above-captioned minor change application.

An engineering study reveals the application is in violation of the interference protection requirements of 47 C.F.R. Section 74.1204. Specifically, the proposed 40 dBu interfering contour overlaps the 60 dBu protected contour of the authorized facilities of co-channel station KXTN-FM, San Antonio, Texas (BLH-20060612AAY). The application does not recognize this defect. Accordingly, we dismiss the application as unacceptable for filing.

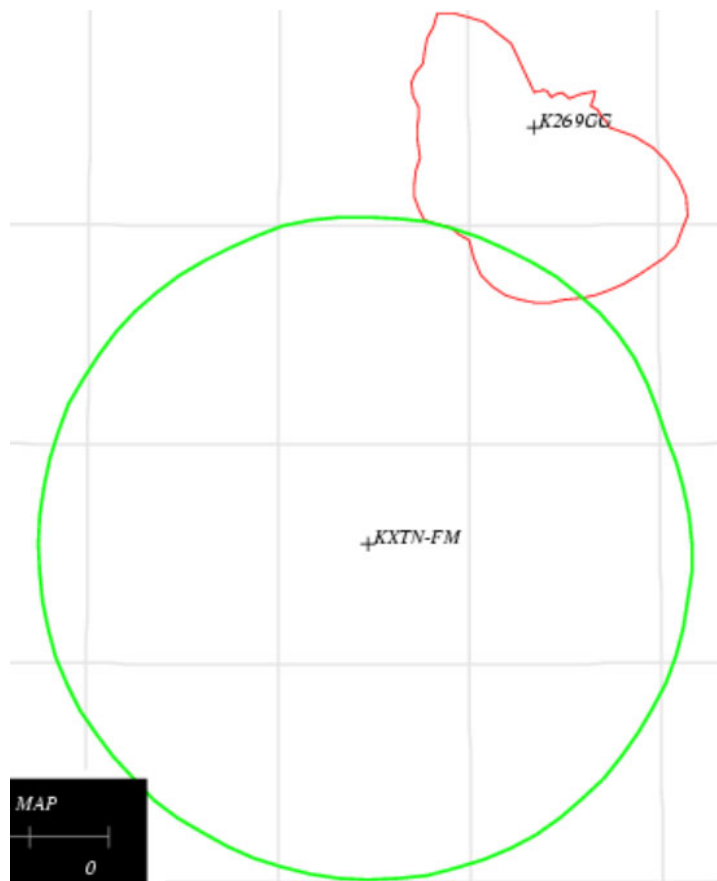

In light of the above, application BMPFT-20161031AEQ is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau
