Re: KJEE (FM), Montecito, California  
Montecito FM, Inc.  
Facility Identification Number: 43589  
Special Temporary Authority  
BESTA-201501124EHD

Dear Licensee:

This is in reference to the request filed November 24, 2015 on behalf of Montecito FM, Inc. ("MFI"). MFI requests an eighth extension of the special temporary authority ("STA") granted on December 5, 2011, to operate Station KJEE with temporary facilities.<sup>1</sup> In support of the extension request, MFI re-states that the licensed site was heavily damaged by wildfire and that MFI was required to reduce power for the protection of workers during the reconstruction efforts. On November 24, 2015, MFI filed construction permit application BPH-20151124EHB for permanent facilities. That application is currently awaiting review.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

---

<sup>1</sup> KJEE is licensed for operation on Channel 225A (92.9 MHz) with effective radiated power of 0.82 kilowatt (H&V) and antenna height above average terrain of 270 meters.

We find that an extension of the STA is warranted, and the request for extension of STA IS HEREBY GRANTED. Station KJEE may continue to operate with the following facilities:

Geographic coordinates:	34° 27' 57" N, 119° 40' 37" W (NAD 1927)
Channel	225A (92.9 MHz)
Effective radiated power:	0.2 kilowatt (H&V)
Antenna height:	
above ground:	5 meters
above mean sea level:	664 meters
above average terrain:	270 meters

MFI must notify the Commission when permanent operations commence. MFI must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

**This authority expires on June 1, 2016.**

Sincerely,

Dale Bickel  
Senior Engineer
