BPED-20080717APP

Dear Applicant:

This letter refers to the above-captioned minor change application to modify effective radiated power, antenna height and location.

An engineering review of the application reveals that the application fails to comply with 47 C.F.R. § 73.525 with respect to TV Channel Six station WRGB(TV), Schenecta, NY. Specifically, our calculations show that there is predicted interference within the Grade B contour of WRGB. This was not addressed in the application. This constitutes an acceptance defect.

In light of the above, Application BPED-20080717AAP is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is **HEREBY DISMISSED**. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci
