Ph. 888-830-5648  
Fax 866-825-4324

RSI Corporation safety professionals performed an RF assessment on the accessible areas at ground level relating to RF emissions on March 25, 2008. Mr. Kyle Graves of RSI took measurements throughout the site in normally accessible areas and outside the site compound in public access areas near the tower site. This site does meet compliance requirements for the FCC Uncontrolled/General Population guidelines at ground level. Data regarding the site assessment is on file at RSI and a complete report will be provided to Ramar Communications within the next ten days. Questions or comments regarding the assessment may be directed to RSI at the address and numbers listed above.

Sincerely,

A handwritten signature in black ink that reads "Greg Kechter". The signature is written in a cursive style and is positioned to the left of a vertical red line.

Greg Kechter, CUSA  
Chief Operations Officer
