**BALLINGER, TEXAS**  
**June 2006**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Double O Texas Corporation ("Double O"), licensee of radio station KKCEN, Channel 276C1, Ballinger, Texas. Double O has an outstanding permit to correct the coordinates of KKCEN (BPH-20060314ADX). Double O herein submits a license application to cover the outstanding permit. Double O is operating KKCEN under automatic program test authority. A calculation of the transmitter power output of the KKCEN transmitter is attached as Exhibit A.

There are two operating conditions/restrictions on the KKCEN permit. The first condition states that Double O will reduce the power of KKCEN, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. Double O will comply with this requirement. The second condition indicates that an ERI LPX-10C-SP antenna is to be used for RF compliance requirements. As indicated on FCC Form 302-FM, the ERI antenna is specified.

Based on the foregoing, it is believed that KKCEN is operating in compliance with the Commission's rules and that all conditions have been met.
