REFERENCE: WTIC AM DIRECTIONAL ANTENNA PROJECT
MoM ANTENNA PROOF OF PERFORMANCE
STA RENEWAL

This letter is presented in support of extension of the STA granted by the FCC to WTIC for directional antenna system repairs and conversion to Method of Moments proof of performance. The current STA expires on May 20, 2010.

During the initial site visit to WTIC, several items in the directional antenna system were discovered to be in need of repair. The progress of the repair has been delayed in part by winter weather at the site, and delivery of needed materials to complete the repairs and update the system.

All remaining needed materials are on order and to be delivered within the next thirty days. Installation of the materials will proceed promptly on receipt, and the Method of Moments directional antenna proof of performance will be completed and filed with the FCC within 30 days of completion of the repairs and necessary system measurements and setup.

Regards,

M Donald Crain
