

SPIRIT BROADCASTING GROUP, INC.

WKBR SUMMERVILLE, SOUTH CAROLINA

This is a Shively Model 6025-4/1 Slant log periodic antenna system installed on a Valmont four foot face guyed tower with all five antennas mounted above the top guy level. The Shively Labs proof of performance for the 6025-4/1-Slant antenna array is attached. A letter from a registered South Carolina surveyor attesting that the five antennas are oriented as specified is attached. I hereby certify that on January 4th and 5th, 2014, I personally supervised the assembly and installation of the Shively 6025-4/1 Slant(43 degree) directional antenna system and that all components were assembled and installed in accordance with the manufacturers instructions from Shively shop order 31127-2 and in accordance with the FCC Construction Permit, BMPED-20130401ABH.

I have an Associates Degree in Electronics Engineering Technology(1977) and over 38 years experience in AM/FM broadcasting including building over 20 towers and supervising the installation of at least eleven FM antenna systems. I declare, under penalty of perjury, that all facts and statements made herein are true to the best of my knowledge and belief.
