RE: FM Translator station K268CK Golden, Colorado on Ch. 214D.

Dear Ms. Medicus,

Syncom Media Group, Inc., licensee of KXDP-LP, Channel 6, Denver, Colorado, facility ID 67552, hereby states that it has no objections to the construction and operation of an FM translator, K268CK, facility ID 147935 operated by Mary Medicus ("MM"), on 90.7 mhz (ch. 214) as proposed with up to a maximum of 14 watts ERP at a transmitter site located at N39-47-05, W105-12-56.

By signing this letter below, MM agrees that, if interference to Channel 6 should arise as a result of the proposed FM translator, MM will immediately cease operation of the translator until a solution to the interference can be found.

MM will also supply TVI filters at no cost to listeners whose reception of the Channel 6 signal may be adversely affected by the proposed FM translator.

Sincerely,

J. Christopher Blair
President
