

October 20th, 2003

Federal Communications Commission,

This letter is to verify that on October 14th, 2003, I witnessed the assembly and installation of the Shively Labs Model 6810 2-bay directional antenna to be used as the KKFS auxiliary antenna system.

The installation was accomplished in full conformance with the drawings, specifications, and instructions from the manufacturer.

The above statement is true and correct to the best of my knowledge and belief.

Thank you,

David S. Fortenberry
