In response to your request for the azimuth of the antennae on the KMJY FM main transmitter site FCC Facility ID No. 29911 (commonly known as Moon Hill), Ref. BPH-20020429AAY we have calculated $94^{\circ}46'15''$. This was arrived at by utilizing Real Time Kinematic (RTK) survey grade GPS.

If you have any questions, please contact me at your convenience.

Sincerely,

JAMES A. SEWELL & ASSOCIATES, LLC
