

An amendment to our current application, File No. BNPL-20131113AAI

To the Commission:

This amendment is regarding our pledges under Section III of Form 318. As a singleton application, it is not clear to us that these pledges are binding as our application for a Construction Permit cannot be rejected based on this Section; however, we believe it would be most honest to ask the Commission to allow us to "decrease" our comparative point total under this Section.

It would be our intention in the future to originate at least 8 hours a day of programming and to staff our main studio at least 20 hours a week, but at this time we would ask permission to be released from these pledges in order to allow us to more easily get on the air. We intend to keep our main studio at the location noted on the application.

I would remind the Commission that there is no requirement for local program origination (FCC 12-144, *Fifth Order on Reconsideration and Sixth Report and Order*, 12/4/2012, paragraph 179), yet we understand and take seriously the responsibility to provide programming responsive to local needs, and we will do so under our overall mission (Exhibit 2 of our original application).

If our amendment is declined, we will happily submit to our original pledges and attempt to fulfill them as best as we are able.

On behalf of Grace Orthodox Presbyterian Church of Modesto, California,  
For God's glory and joy,

Bernardo J. Mora
