

EXHIBIT 11
Interference Analysis
K55BT
Facility ID No. 72535

This Technical Exhibit is attached to FCC Form 346 in support of the Applicant's request for Digital Displacement. The proposed modified operational parameters for K55BT are as follows:

Channel	36
Out-of-channel Emission Mask:	STINGENT
Antenna radiation center height above ground level:	94 meters
Maximum effective radiated power:	1.5 KW
Antenna type and model #:	MCI 955312
Antenna Orientation	237 Degrees
Transmitter Site	39-57-9.6 N 75-10-3.4 W

A study has been conducted using the provisions of sections 74.703 74.705, 74.706, 74.707, 74.708 and 74.709. This study indicates that the proposal will not create prohibited interference with other existing NTSC full power, DTV, LPTV, or Land Mobile facilities. This proposed facility complies with all interference protection requirements.
