Re: Davidson Media Station WNSG Licensee  
WNVL(AM), Nashville, TN  
Facility ID No: 16898  
File No: BP-20050317AAR

Dear Applicant:

The staff has under consideration the above-captioned modification application for AM broadcast station WNVL.

On April 17, 2006, the staff sent a deficiency letter requesting an amendment to provide the proposed antenna structure registration number. The information is needed in order to process the application. As to this date, we have not received the requested amendment.

Accordingly, the application (File No. BP-20050317AAR) IS HEREBY DISMISSED as unacceptable for filing. This action is taken pursuant to 47 CFR § 0.283 of the Commission's Rules.

In the Public Notice entitled "Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications", FCC 84-366, released August 2, 1984, the Commission indicated that it would reinstate applications nunc pro tunc where the original application was returned and where a relatively minor curative amendment was filed in conjunction with a petition for reconsideration within 30 days of the date of the dismissal. Any amendment filed later than 30 days will be returned as untimely. See 47 U.S.C. § 405, 47 CFR § 1.106(f). In this regard, it should be emphasized that the above deficiencies were discerned after a preliminary study of the application. A detailed review was not made of the entire application to determine whether other deficiencies exist which would preclude acceptance for filing or result in a subsequent dismissal. Inasmuch

as the applicant will not be afforded a second opportunity to correct another deficiency, the applicant is encouraged to carefully review the entire application.

Sincerely,

A handwritten signature in black ink, appearing to read "Son Nguyen". The signature is fluid and cursive, with the first name "Son" and last name "Nguyen" clearly distinguishable.
