Re: WYFB (FM), Gainesville, FL  
Bible Broadcasting Network, Inc.  
Facility Identification Number: 5083  
Special Temporary Authorization (STA)  
BSTA-20140110AEA

Dear Counsel:

This is in reference to the request filed January 10, 2014 on behalf of Bible Broadcasting Network, Inc. ("BBN"). BBN explains that WYFB is currently operating at half power, following problems with the transmission and antenna. BBN requests an STA for continuing reduced power operation, until repairs can be effectuated.

Section 73.1560(d), which governs reduced power operation, states:

In the event it becomes technically impossible to operate at authorized power, a broadcast station may operate at reduced power for a period of not more than 30 days without specific authority from the FCC. If operation at reduced power will exceed 10 consecutive days, notification must be made to the FCC in Washington, DC, Attention: Audio Division (radio) or Video Division (television), Media Bureau, not later than the 10th day of the lower power operation. In the event that normal power is restored within the 30 day period, the licensee must notify the FCC of the date that normal operation was restored. If causes beyond the control of the licensee prevent restoration of the authorized power within 30 days, a request for Special Temporary Authority (see Section 73.1635) must be made to the FCC in Washington, DC for additional time as may be necessary.

Our review indicates that the request complies with Section 73.1560(d).

Accordingly, the request for STA IS HEREBY GRANTED. Station WYFB may continue to operate with reduced power. BBN must notify the Commission when licensed operation is restored. BBN must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **July 23, 2014**.

Sincerely,

Dale Bickel  
Senior Engineer  
Audio Division  
Media Bureau
