

Predicted 117.8 dBu interfering contour extends to no greater than 141 m and does not reach ground level. See vertical plan view of interfering contour. Therefore, since the 117.8 dBu contour does not contain any populated areas or publicly traversed areas, the requirements of Section 74.1204(d) of the FCC Rules are met under the 'Living Way' case precedent with respect to WCMC-FM.
