REQUEST FOR WAIVER OF THE "ONE APPLICATION" POLICY

Carlos Lopez ("Lopez"), by counsel, hereby submits this "Request for Waiver of the One Application Policy" set forth in the Public Notice DA 1491 (released December 23, 2015) ("the Public Notice") with regard to the special filing windows for the relocation of FM translator stations to serve as fill-in facilities for AM radio stations. The Public Notice created two special filing windows – January 29 to July 28, 2016 and July 29 to October 31, 2016. In this instance, Lopez filed applications in both special filing windows that specified fill-in service for Class D Radio Station KYOK-AM due to unique circumstances beyond his control. Although the multiple application filings by Lopez violated the "one application" policy that governs these special filing windows, we submit that a waiver of that policy is warranted here.

In support hereof, Lopez submits the following:

1. On January 29, 2016, Lopez filed an application in the January 29 – July 28, 2016 special filing window for the proposed move of unbuilt FM translator station K256CB to Houston, Texas to serve as a fill-in for Radio Station KYOK-AM on Channel

245. KYOK-AM is owned by minority broadcaster Martin Broadcasting, Inc. ("Martin Broadcasting"). At that time Martin Broadcasting held Construction Permit BP-20110407ABH for the relocation of the station to Katy, Texas.

2. Lopez was granted Construction Permit BMPFT-20160129ABF to rebroadcast KYOK-AM at Katy, Texas. Unfortunately Martin Broadcasting did not move KYOK-AM to Katy, Texas because land restrictions prevented the build out of Construction Permit BP-20110407ABH. KYOK-AM remained licensed to Conroe, Texas but the K245CB facilities specified in Construction Permit BMPFT-20160129ABF are not located in a proper area to serve as a fill-in for KYOK-AM.

3. The failure of KYOK-AM to relocate to Katy, Texas left Lopez in limbo since he held a special filing window Construction Permit that could not be implemented. These matters were beyond Lopez' control. And, because Lopez had a written agreement with Martin Broadcasting to rebroadcast KYOK-AM another modification application was filed by Lopez to relocate his unbuilt FM translator station to another new area that would permit fill-in operations for KYOK-AM. That application was BMPFT-20160211ACB and it was dismissed on April 15, 2016 for violating the "one application" rule for the special filing window. The violation of the "one application" rule resulted in the application being considered a major change application rather than a minor change application, and it was dismissed per a Letter Ruling dated April 15, 2016, a copy of which is attached hereto as Exhibit No. 1.¹

¹ There was also an Informal Objection filed against BMPFT-20160211ACB by New Beginnings Fellowship Church.

4. Recently, in the July 29 – October 31, 2016 special filing window Lopez filed a new modification application (BMPFT-20160921ACF) to modify K245CB to Channel 222 to serve as a fill-in translator for KYOK-AM where it is currently licensed, and where KYOK-AM will remain.

5. Attached hereto as Exhibit No. 2 is the written Declaration of Carlos Lopez in support of this petition. We submit that the facts surrounding the course of events here were beyond the control of Lopez and the spirit of the AM Revitalization proceeding should allow Lopez the opportunity to fulfill his intentions to provide fill-in services to KYOK-AM.

6. Also attached hereto as Exhibit No. 3 is the written statement of Lopez' technical consultant wherein it is demonstrated that application BMPFT-20160921ACF is technically sound and is not mutually exclusive with any other pending application. Therefore, no other party will be prejudiced should the Commission decide to process and approve application BMPFT-20160921ACF.

7. In considering this waiver request, Lopez respectfully reminds the Commission that the AM Revitalization Order (*Revitalization of the AM Service, First Report and Order, Further Notice of Proposed Rule Making, and Notice of Inquiry, FCC 15-142 (released October 23, 2015)* ("AMR Order")) adopted a number of rule and policy changes to strengthen the AM service, thereby advancing the Commission's fundamental goals of localism, competition and diversity in broadcast media. A key component of the AMR Order was the special filing window that Lopez availed himself of for the benefit of Radio Station KYOK-AM.

8. The "one application" policy was initiated not only to prevent application

gamesmanship during the special filing windows but also spectrum hoarding that could prevent the largest number of parties to file applications. Here the facts clearly show that no gamesmanship took place. Lopez originally proposed to provide fill-in operations for an AM radio station that had FCC authority to relocate to the Houston, Texas area but, unfortunately, never implemented that move. Since Lopez has a written agreement to provide fill-in services to KYOK-AM he is pursuing this new modification application to an area where KYOK-AM has been licensed for years, and where KYOK-AM will remain. Also, it is important to note that by allowing Lopez' instant application to proceed no other party will be harmed or prejudiced because BMPFT-20160921ACF is not MX'd with any other application.²

9. Lopez understands that it is longstanding Commission policy that waivers are granted only when good cause is demonstrated, and that a waiver request faces a high hurdle even at the starting gate. See, 47 CFR § 1.3; *WAIT Radio v. FCC*, 418 F.2d 1153, 1157 (D.C. Cir. 1969). Further, it is understood that a waiver is appropriate only if both (1) special circumstances warrant a deviation from the general rule, and (2) such deviation better serves the public interest. *NetworkIP, LLC v. FCC*, 548 F.3d 116, 125-128 (D.C. Cir. 2008). Lopez submits that the unique circumstances here qualify for a waiver.

10. The special circumstances at issue here is the unique filing opportunity for an FM translator station or FM translator construction permit to relocate up to 250 miles to serve as a fill-in for an AM radio station. Never before has the FCC allowed such modifications and, most likely, such a filing opportunity will not be offered again. Adding to the special circumstances of the situation is the fact that the unique filing opportunity was created as

² A copy of this petition is being served upon New Beginnings Fellowship Church since they previously objected to Lopez' application BMPFT-20160211ACB.

part of the AM Revitalization Proceeding and the many public interest reasons to save and promote the AM broadcast service. With those thoughts in mind, we must not lose sight of the fact that the current Lopez application is being pursued to serve as a fill-in for Radio Station KYOK-AM.

WHEREFORE, the foregoing premises considered, Lopez submits that good cause exists for the consideration and grant of this Waiver Request and the ultimate approval of modification application BMPFT-20160921ACF.

Respectfully submitted,

CARLOS LOPEZ

In re: K245CB, Shiner, TX
BMPFT-20160211ACB
Facility ID No. 148484
Informal Objection

Dear Applicant:

The staff has under consideration: (1) the above-captioned application (application) for K245CB, Houston, Texas, filed by Carlos Lopez (Lopez); and (2) the February 23, 2016 Informal Objection (objection) of the application filed by New Beginnings Fellowship Church. For the reasons set forth below, we dismiss the application and dismiss the objection as moot.

Review of the application reveals that the proposal violates the one-per-AM station limitation. Per the December 23, 2015 Public Notice announcing the windows for certain FM translator modification applications, the Media Bureau indicated that it would only permit the filing of one Modification Window application that proposes to rebroadcast a specific AM primary station.¹ It further stated that we will "...dismiss any Modification Window application that proposes to rebroadcast an AM station that has already been listed in a prior Modification Window application as the primary station." We note that Lopez filed a Modification Window application on January 29, 2016 (BMPFT-20160129ABF), proposing to relocate the station approximately 170 kilometers to Channel 245. Staff granted that application on February 10, 2016. Lopez now seeks to modify the granted construction permit by changing to Channel 222 and further modifying its transmitter location. We note that such a channel change is a major change, per Section 74.1233(b)(1) of the rules.² We also note that both applications propose to rebroadcast KYOK(AM). Therefore we must treat this application as a second Modification Window application. Lopez fails to address this deficiency. Therefore, we will dismiss the application. In light of this decision, we do not reach the merits of the objection and dismiss it as moot.

¹ Media Bureau Announces Filing Dates and Procedures for AM Station Filing Window for FM Translator Modifications and Availability of FM Translator Technical Tools, Public Notice, 30 FCC Rcd. 14690 (2015). (Window PN)

² 47 C.F.R. Section 74.1233(b)(1).

Accordingly, the February 23, 2016 Informal Objection IS DISMISSED as moot and the application BMPFT-20160211ACB IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Declaration of Carlos Lopez

My name is Carlos Lopez and my address is 514 Greenway Drive, Corpus Christi, Texas 78412. I am an Hispanic minority broadcaster. I am the permittee of unbuilt FM translator station K245CB.

On January 29, 2016, I filed an application in the January 29 – July 28, 2016 special filing window for the proposed move of K256CB to Houston, Texas to serve as a fill-in for Radio Station KYOK-AM on Channel 245. KYOK-AM is owned by minority broadcaster Martin Broadcasting, Inc. At that time Martin Broadcasting held Construction Permit BP-20110407ABH for the relocation of the station to Katy, Texas. I was granted Construction Permit BMPFT-20160129ABF to rebroadcast KYOK-AM at Katy, Texas.

Unfortunately Martin Broadcasting did not move KYOK-AM to Katy, Texas because land restrictions prevented the build out of Construction Permit BP-20110407ABH. KYOK-AM remained licensed to Conroe, Texas but the K245CB facilities specified in Construction Permit BMPFT-20160129ABF are not located in a proper area to serve as a fill-in for KYOK-AM. The failure of KYOK-AM to relocate to Katy, Texas left me in limbo since I held a Construction Permit that could not be implemented. These matters were beyond my control and I should not be blamed. So, because I had a written agreement with Martin Broadcasting to rebroadcast KYOK-AM another modification application was filed to relocate my unbuilt FM translator station to another new area that would permit fill-in operations for KYOK-AM. That application was BMPFT-20160211ACB and it was dismissed on April 15, 2016 for violating the "one application" rule for the special filing window. There was also an Informal Objection filed against BMPFT-20160211ACB by New Beginnings Fellowship Church.

Recently, in the July 29 – October 31, 2016 special filing window I filed a new modification application (BMPFT-20160921ACF) to modify K245CB to Channel 222 to serve as a fill-in translator for KYOK-AM where it is currently licensed, and where KYOK-AM will remain. That is why I plea for relief and ask the FCC to grant me a waiver of the One Application Rule and approve my latest minor modification application. All I want to do is to fulfill the Commission's AM Revitalization goals and bring relief to radio station KYOK AM so that it can better serve the public interest.

The foregoing statement are true and are made under the penalty of perjury.

Carlos Lopez

CARLOS LOPEZ

BMPFT-20160921ACF

On September 21, 2016 Celenza Communications prepared an application for modification to a construction permit for Mr. Lopez BMPFT-20160921ACF during the AM revitalization window when we prepared this application it met all F.C.C. rules. We re-ran the study today and it still meets all F.C.C. rules and the current U.S. and Mexico agreement. Please see the modification filed September 21, 2016 it is not MX with anyone. If you have any questions or concerns please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael Celenza', written over the printed name.
