In re: Low Power Television Application of:
Hispanic Christian Community
Network, Inc.
Channel 2, Dallas, TX.
File no.: BMPDVL-20110928AFK
Facility Id No.: 130934

Dear Applicant:

The application as referenced above is dismissed.

The licensee was sent a deficiency letter on October 26, 2011. You were given 30 days from the date of that letter to file an amendment to resolve the deficiencies that were discovered during the initial review of your application as shown below. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the proposed relocation distance of the above referenced digital modification application from the existing digital license facility file number BLDVL-20091123AKU is 58.6 miles which exceeds our 30 mile rule.

In addition, our ASR registration search using the antenna registration number 1050709 as provided in the proposed construction permit reveals the tower status as terminated.

Our records show that no amendment has been filed as of November 8, 2011 to resolve the above referenced deficiencies.

Sincerely

Hossein Hashemzadeh
Deputy Chief
Video Division
Media Bureau
