

**Amendment to BESTA-20100127ABX
WYCS-FM (Facility ID No. 66672)
Yorktown, VA**

March 4, 2010

As Exhibit No. 24 of BESTA-20100127ABX explains, WYCS-FM has experienced a continuous series of setbacks in trying to find a new permanent transmitting site. The most recent modification application was granted on January 6, 2010 but unfortunately the tower site owner for the site specified in BMPED-20091222ALV had a change of heart and will not allow WYCS-FM to relocate there.

Late this past Monday (March 2, 2010), WYCS-FM secured preliminary approval from the City of Poquoson, Virginia to construct a new tower there for WYCS-FM, pending the usual final approvals, etc. A copy of the site letter is attached as a PDF.

Next week we hope to file a new modification application for WYCS-FM for the Poquoson site. Therefore, in the spirit of full disclosure, we hereby amend BESTA-20100127ABX to reflect all of this new information.
