Lake Powell Communications aka KPGE/KXAZ
BALFT-20190809AAC BPFT-20190809AAD K261BX

This Communication is intended to be a Petition to Deny the application by Jeffery Jennings license of K261AA Page AZ to assign the FM Translator to Lake Powell Communication licensee of KPGE AM and KXAZ FM Page AZ.

This Application must be denied for the following reasons:

- Proposed assignee is Lake Powell Communications who certified that they have posted a public notice for the sale of this station on 100.1 FM. To date no public notice found, the application was certified fraudulently.
- The coverage is redundant, even though Lake Powell Communications has certified fraudulently that the new translator covers a 'different area', close examination shows this is fraud on part of the Lake Powell ownership the coverage duplicates exactly the same coverage and programing on 98.3.
- Lake Powell Communication has filed false information to the FCC in proceedings against a Navajo Mountain Station as evidenced in recent Page, Arizona Chamber of Commerce proceedings. Those statements indicate there is no population east of Navajo Mt Utah. This is untrue, my spouse's family lives in the Navajo Mt area as well as dozens of Native Americans without FM radio signals.
- It is known in the community here the local Lake Powell Communication licensee and owner operates above the law as the sole monopoly radio operator in this region. The owners brazenly constructed an FM transmitter at there studio for 'convenience' during false of there main equipments, former and current employees/neighbors report the station operating with an apparent unlicensed signal at there office in Page AZ.

The application for purchase of the new signal here must be stopped. This rouge radio operator has no apparent appreciation for the rules and wants nothing more to monopolize of the radio dial here in Northern Arizona.

The forgoing facts are true and correct to the best of my knowledge and ability.
