PETITION FOR DISMISAL

By way of background to this petition, the petitioner originally filed its application in the filing window of 2003 on Channel 282 and in the settlement window established by the FCC after being MX'd with the Charles Crawford application, filed an amendment to move to another channel which resulted in a conflict with the Crawford application and as a result of the two applications trying to both use another channel. "Tuteru" in an additional amendment filed ask for a PETITION FOR RECONSIDERATION, when the FCC dismissed its amended application.

"Tuteru"s, petition for reconsideration filed in June of 2013 demonstrated that the Crawford amendment violated the FCC's allocation rules and therefore should not have been accepted, and therefore could not have served as the basis for Tuteru's dismissal.

Tuteru asserts that a conflict existed and that Tuteru believed that its original application should never have been dismissed but in lieu of the FCC recent action of reinstatement it is now ready to file its dismissal of its petition.

Carl Tuteria ("Tuteria"), applicant, hereby respectfully petitions for a dismissal of its pending amended FM translator application on Channel 228 (BNPFT-20030317MBE) mutually-exclusive with the application of Charles Crawford, FCC File No. BNPFT-20130923ABF, Facility ID No 158312

"Tuteria", takes this action as a result of the relief and the reinstatement of its original application on 5/6/2014 by the Media Bureau of the FCC stating the following: Petition for Reconsideration granted in part and application reinstated to pending status 5/6/2014 - no letter sent.

Application will be included in a future long-form filing window - to be announced by Public Notice.

In view of the foregoing, Carl Tuteria respectfully submits that the Bureau in granting it's reinstatement of its original application filed in the translator filing window of 2003 on Channel 282, on the frequency of 104.3 FM, Kendall/Miami, Florida, withdraws its petition for reconsideration of the mutually exclusive amended application with the Charles Crawford application.

Respectfully Submitted

Carl Tuteria
