

FM-301 Exhibit 21.(1) Introduction.

The following Engineering Data has been prepared in support of an application by FM Radio, L.C. Inc. for authority to change the authorized ERP and transmitter site of WFMV Franklin LA.. This submission also complies with the requirements of FCC Rule 73.207. In order to accomplish this end, the transmitter facilities must be expanded and installed as described in this report. A complete study, coverage maps, and pertinent information as required under the rules is included. It is shown that the proposal meets all requirements of current/former FCC Rules. The study also illustrates that no other station on the same channel or stations on adjacent channels will be precluded from upgrading facilities should this proposal be approved.

The database listings for channels in the area of consideration include the following :

Channel 288A Eunice LA. 30-26-16 N 92-26-49 W.
P.O. KJJB 1.0 Kw H&V 148/159m EHAAT.

Channel 288A Eunice LA. 30-29-35 N 92-22-25 W
Allocation only.

Channel 290A Berwick LA. 29-45-27N 91-10-25W
P.O. KBZE 4.0 kw H&V 123.0m EHAAT.

Channel 290A Berwick LA. 29-40-11N 91-12-46W
Allocation only.

Clearance for the proposed site has been requested from FAA with subsequent FCC structure registration to follow.
