In re: NEW(FM), Columbia, SC
BNPFT-20130815ACB
Facility ID No. 142880

Dear Applicant:

This letter is in reference to the above-captioned application for a new translator at Columbia, SC.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1201 (g). Section 74.1201(g) states that the coverage contour of an FM translator rebroadcasting an AM radio broadcast station as its primary station must be contained within the lesser of the 2 mV/m daytime contour of the AM station and a 25-mile (40 km) radius centered at the AM transmitter site. The application proposes to rebroadcast WPOG(AM). Our study reveals the proposed coverage contour of the translator is outside both the 2 mV/m daytime contour of the AM station and a 25-mile (40 km) radius centered at the AM transmitter. Therefore, the application will be dismissed.

In light of the above, the application BNPFT-20130815ACB filed by Community Public Radio, Inc. is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

for
James D. Bradshaw
Deputy Chief
