/1 There will be overlap normally prohibited by Section 74.1204 (see Figure 3). However, based on the U/D signal strength ratio methodology, which is permitted by the FCC (per Living Way Ministries), it has been determined that no actual interference would occur due to lack of population under Section 74.1204(d). See Exhibit 17.

/2 Proposal complies with the contour overlap provisions of Section 74.1204(a). See Exhibit 17 and Figure 3.
